Our Policy

- All breeding dogs registered on the database require ISAG 2006 or later DNA profiles for parentage. (DNA from their parents is not required). * Dogs already tested with other DNA profiles will be accepted for initial registration.
- Litters and new dogs must be tested using ISAG 2006 or later profiles for registration. *
- All dogs must have a traceable lineage.
- If you do not wish to renew for the following year you need to advise WBBA in writing by 30 September of the current year or your membership will auto renew.

Requirements for database

We will provide you with a csv file for your member's details and for the dog's details. Please ask any questions when completing the documents.

Paypal

World Boerboel Breeders Association PTY. LTD.

E-Mail: accounts@worldboerboel.com

Bank Details Coming Soon

Please email your application to accounts@worldboerboel.com.

*Australian members may use Orivet <http://orivet.com.au/> who use some of the ISAG markers and several additional markers. If parentage checks are required by IBBF the member will have to request the parentage check from Orivet and provide the verification to IBBF.

If your country does not have a facility that does ISAG testing, please contact us on info@worldboerboel.com to discuss your options.
